

REMCO

Food Grade Scrapers

Hygiene | Sanitation | Safety

Your Partners in Hygiene

Remco Products offers a variety of FDA-compliant scrapers for all your scraping, bench top and food prep needs. As part of a comprehensive line of hygienic material handling tools, Remco and Vikan scrapers are designed to minimize the risk of cross-contamination in wet or dry food processing. One-piece construction helps eliminate areas for bacteria to hide in and multiply. The scrapers are also chemical resistant and autoclavable. Available in a vast array of colors, these scrapers support color-coding programs and hygienic sanitary and safety procedures throughout food processing facilities.

Floor Scrapers

Remco Products offers an assortment of food-safe scrapers designed with hygiene and durability in mind. The food hoe, floor scrapers, and paddle scrapers are designed to be paired exclusively with Vikan or Remco handles only. For more on these handle options, see our Handle Selection Guide, our Full-Line Catalog, or visit remcoproducts.com.
