61. CSA File LL66078

## FEATURES-SPECIFIGATIONS

## Applications

Designed to house electrical and electronic controls, instruments and components. Heavy-duty construction provides protection from dirt, dust, oil and water. Sloping front control panel provides an ideal surface for mounting pushbuttons, pilot lights, meters and switches.

## Construction

- Bodies and doors are fabricated from carbon steel
- Seams are continuously welded and ground smooth
- 3-point keylocking handle is provided
- Main door on console is raised
- Control panels are hinged along the bottom edge
- Control panels, access panels and instrument panels have captivated screws which thread into sealed wells
- Door stops provided to hold control panel open
- Grounding provisions are provided
- Closed cell neoprene gasket
- Removable back panel included with the enclosure

## Finish

- ANSI 61 gray polyester powder inside and out
- Included back panel is painted with a white polyester powder

## Accessories

- See pages L1-L24

## FEATURES-SPECIFICATIONS

## Applications

Designed to house electrical and electronic controls, instruments and components. Heavy-duty construction provides protection from dirt, dust, oil and water. Sloping front control panel provides an ideal surface for mounting pushbuttons, pilot lights, meters and switches.

## Construction

- Bodies and doors are fabricated from carbon steel
- 3-point keylocking handle is provided
- Seams are continuously welded and ground smooth
- Control panel is attached with a continuous hinge along the bottom edge and secured with captive screws, threaded into sealed wells
- Door stops are provided to hold control panel open
- Collar studs for mounting one, two or three optional panels are provided
- Closed cell neoprene gasket
- Grounding provisions are provided

## Finish

- ANSI 61 gray polyester powder inside and out
- Optional side and back panels are painted with a white polyester powder

## Accessories

- Side panels, back panels and caster kits (reference table)

## FEATURES-SPECIFICATIONS

## Applications

Designed to house electrical and electronic controls, instruments and components. Heavy-duty construction provides protection from dirt, dust, oil and water. Sloping front control panel provides an ideal surface for mounting pushbuttons, pilot lights, meters and switches.

## Construction

- Bodies and doors are fabricated from carbon steel
- Seams are continuously welded and ground smooth
- 3-point keylocking handle is provided
- Double overlapping doors are provided on two door consoles
- Main hinged doors are flush
- Large sloping control panels are hinged along the bottom edge
- Control panels have captivated screws which thread into sealed wells
- Grounding provisions are provided
- Door stops are provided to hold control panel open
- Closed cell neoprene gasket
- Removable back panel is included with console
- Studs are welded to the inside of the console for mounting back panel
- An inclined body rail is welded to each side of 24.00 " wide and 36.00 " wide consoles for support of terminal straps

## Top

- Fabricated from carbon steel
- Tops have a sloped front surface
- Seams are continuously welded and ground smooth
- Instrument and access panels have captivated screws which thread into sealed wells
- Closed cell neoprene gasket
- Instrument panels and access panels are removable

## Writing Desk

- Fabricated from carbon steel
- Seams are continuously welded and ground smooth
- Desks are removable and attach easily to the front of the console

## Finish

- ANSI 61 gray polyester powder inside and out
- Included back panel is painted with a white polyester powder

## FEATURES-SPECIFICATIONS

## Applications

Designed to house electrical and electronic controls, instruments and components. Heavy-duty construction provides protection from dirt, dust, oil and water. Sloping front control panel provides an ideal surface for mounting pushbuttons, pilot lights, meters and switches.

## Body

- Bodies and doors are fabricated from carbon steel
- Seams are continuously welded and ground smooth
- 3-point keylocking handle is provided
- Double overlapping doors are provided on two door consoles
- Main hinged doors are flush
- Grounding provisions are provided
- One or two large sloping control panels are hinged on bottom
- Control panels have captivated screws which thread into sealed wells
- Door stops are provided to hold control panel open
- Closed cell neoprene gasket
- Horizontal channels are welded to the sides of the console to support optional panels, swing-out panels and rack mounting angles
- Optional half, full, and swing panels are available

## Top

- Fabricated from carbon steel
- Top unit is 12.50 " deep to accommodate most instruments
- Seams are continuously welded and ground smooth
- Instrument and access panels have captivated screws which thread into sealed wells
- Instrument and access panels are removable
- Closed cell neoprene gasket

## Writing Desk

- Fabricated from carbon steel
- Seams are continuously welded and ground smooth
- Desks are removable and attach easily to the front of the console

## FEATURES-SPECIFICATIONS

## Applications

Designed to house a variety of electronic control or instrumentation devices. Consolets provide protection from dust, dirt, oil, and water. Flexible design allows for mounting on either of two sides, creating control surfaces of 30 degrees or 60 degrees. Consolets can be mounted on desktops, pedestals, or other flat surfaces.

## Construction

- Bodies and doors are fabricated from carbon steel
- Seams are continuously welded and ground smooth
- Captivated cover screws thread into sealed wells
- Control panel is continuously hinged along the bottom edge
- Closed cell oil resistant neoprene gasket
- Grounding provisions are provided

## Finish

- ANSI-61 gray polyester powder inside and out over phosphatized surfaces

WA44BPCOL
WITH OPTIONAL BASE SHOWN

## FEATURES-SPECIFICATIONS

## Applications

Designed to permit floor mounting of many types of enclosures and boxes. Four column and two base sizes are available. Columns can be mounted on either base. Wiring connections can be made through the base, through the vertical column, or directly to the enclosure. Columns have flanges at each end and a gasketed access plate. Screws, oil-resistant gaskets, and box connector fittings are furnished with each column for joining an enclosure to the top of the column A cutout must be made in the enclosure if the wires are to come through the column.

## Column

- Columns are fabricated from carbon steel or 304 stainless steel
- Gasket, screws and box connector fittings are furnished for mounting consolet
- Columns feature gasketed access plate

## Base

- Fabricated from carbon steel or 304L stainless steel
- Bases have reinforced, leveling screws and holes for securing to the floor

## Finish

- ANSI-61 gray polyester powder inside and out
- Stainless steel option has a smooth grained finish

## FEATURES-SPECIFIGATIONS

## Applications

Designed for use where slanted control surfaces are required. Enclosures may be mounted in a variety of ways to meet specific requirements. Receives all standard brands of oil-tight pushbuttons, switches and pilot lights. Provides protection from dirt, dust, oil and water.

## Construction

- Bodies and covers are fabricated from carbon steel
- Closed cell oil resistant neoprene gasket
- Seams are continuously welded and ground smooth
- External mounting plate at the top and bottom of the enclosure
- Captivated cover screws thread into sealed wells
- Standard "4-way" pushbutton holes accept all brands of oil-tight pushbuttons, switches and pilot lights
- Enclosures $7.25^{\prime \prime} \times 6.25^{\prime \prime} \times 6.75^{\prime \prime}$ and larger have internal detachable hinges to hold cover open during wiring, yet permit quick removal
- Grounding provisions are provided

Finish

- ANSI-61 gray polyester powder inside and out

## Accessories

- See pages L1-L24

## FEATURES-SPEGIFIGATIONS

## Applications

Designed to hold all standard brands of miniature oil-tight pushbuttons, switches, and pilot lights. Provides protection from dust, dirt, oil and water.

## Construction

- Bodies and covers are fabricated from carbon steel
- Seams are continuously welded and ground smooth
- Closed cell oil resistant neoprene gasket
- External mounting plates at the top and bottom of the enclosure
- Captivated cover screws thread into sealed wells
- Standard "4-way" 22 mm miniature pushbutton holes accept all standard brands of miniature pushbuttons, switches and pilot lights
- Enclosures $8.50^{\prime \prime} \times 5.00^{\prime \prime} \times 4.25^{\prime \prime}$ and larger have internal detachable hinges to hold cover open during wiring, yet permit quick removal
- Grounding provisions are provided

## Finish

- ANSI-61 gray polyester powder inside and out

## Accessories

- See pages L1-L24

## FEATURES-SPECIFIGATIONS

## Applications

Designed to hold 30.5 mm oil-tight pushbuttons, switches, and pilot lights. Provides protection against dirt, dust, oil, and water. Extra deep design accommodates additional contact blocks for pushbuttons.

## Construction

- Bodies and doors are fabricated from carbon steel
- Seams are continuously welded and ground smooth
- Closed cell oil resistant neoprene gasket
- External mounting plates at the top and bottom of the enclosure
- Captivated cover screws thread into sealed wells
- Standard "4-way" pushbuttons holes accept all brands of oil-tight push buttons, switches and pilot lights
- Enclosures 6.00" $\times 4.00$ " $\times 4.75^{\prime \prime}$ and larger have internal detachable
hinges to hold cover open during wiring, yet permit quick removal
- Grounding provisions are provided

## Finish

- ANSI-61 gray polyester powder inside and out over phosphatized surfaces

## Accessories

- See page E4 for stainless steel PBXDSS Series
- See pages L1-L24

## FEATURES-SPEGIFIGATIONS

## Applications

Designed to hold all standard brands of pushbuttons, switches and pilot lights. Provides protection from dust, dirt, oil and water. This "Slimline" model is designed for conditions where enclosures must fit within a very limited space.

## Construction

- Bodies and covers are fabricated from carbon steel
- Seams are continuously welded and ground smooth
- Closed cell oil resistant neoprene gasket
- External mounting plates at the top and bottom of the enclosure
- Captivated cover screws thread into sealed wells
- Standard 4-way pushbutton holes accept all brands of oil-tight pushbuttons, switches and pilot lights
- Grounding provisions are provided

## Finish

- ANSI-61 gray polyester powder inside and out

## FEATURES-SPECIFICATIONS

## Applications

Designed to hold 30.5 mm oil-tight pushbuttons, switches, and pilot lights with extra size to allow 2.50" between centers of pushbutton holes. Provide protection against dirt, dust, oil, and water.

## Construction

- Bodies and covers are fabricated from carbon steel
- Seams are continuously welded and ground smooth
- Continuous hinge is provided
- Back panel is included with the enclosure
- Closed cell oil resistant neoprene gasket
- External mounting plates at the top and bottom of enclosure
- Captivated cover screws thread into sealed wells
- Standard "4-way" pushbutton holes accept all brands of oil-tight push buttons, switches and pilot lights

Industry Standards
