

The Right Connection®

Dixon Sanitary Patented Single Pin Squeeze Clamp

*When you wish you had a third hand, this is
"The Right Connection" for you!*

The spring-loaded handle allows the squeeze clamp to stay on all types of clamp ferrules while you tighten the wing nut and hold the fittings in place at the same time.

This same feature allows clamps to be hung on tubing near where you are doing cleaning or assembly, ready for the next joint to be assembled.

- Works on all types of clamp ferrules
- Great for maintenance when having to remove valves and other equipment for cleaning.
