

Justrite Safety Group

**522 - CUSHION-LOK™
W/ GRIP-STEP®**
PRODUCT INFORMATION BROCHURE

For over 70 years, the name Notrax[®] has meant superior quality, service, and innovative products. Now this brand is a cornerstone of Justrite Safety Group, offering the widest selection of products to a variety of markets and applications including entrance mats, anti-fatigue/safety mats, and products designed specifically for use in professional food service environments. Notrax[®] offers a complete selection of floor matting options to meet any application requirement, quality expectation, and budget.

- **Track record of manufacturing high quality mats for over seventy years**
- **All products are manufactured in ISO certified facilities**
- **Notrax[®] offers anti-fatigue matting, entrance matting, safety matting, food service matting and specialty mats designed for a variety of industries**

522 - CUSHION-LOK™ W/ GRIP-STEP® is a tough PVC based workstation mat with an added thick grit top surface intended for slippery wet environments where resistance to harsh industrial chemicals is a necessity. Cushion-Lok™ w/ Grip-Step® has hundreds of portholes to facilitate drainage while the worker is elevated on a series of blades to increase traction and keep the worker out of the spillage. Cushion-Lok™ w/Grip-Step® is manufactured from 100% recycled PVC for greater resistance to industrial chemicals, cutting fluids, oils and greases. Create your own workstation configuration or select an assembled stock size.

Material: PVC

Features and Benefits:

- A tough PVC based workstation mat made from 100% recycled materials (black only)
- Gritted porthole drainage system removes liquids and debris from worker platform
- Raised footing design elevates the worker out of the spillage
- Tiles use dovetail connection system
- Custom configure own workspace or select from an assembled stock size
- Stock size mats have beveled edges permanently affixed on 3 sides for a true workstation mat
- Beveled ramps and corners available

⚠ WARNING: This product can expose you to chemicals including di-2-ethylhexyl phthalate and/or diisononyl phthalate which is known to the State of California to cause cancer, birth defects or reproductive harm. For more information, visit www.P65Warnings.ca.gov

MODEL: 522

SPECIFICATIONS

Sizes	12"x12" Tiles, 6"x12" Ramps, 6"x6" Corners		
Assembled Stock Sizes	30"x36", 30"x48", 30"x60", 30"x72", 30"x96", 42"x72", 42"x96", 42"x120"		
Thickness	7/8"		
Colors	Assembled Black/Yellow	Tiles Black	Ramps/Corners Black Yellow

APPLICATIONS

- Wet environments where drainage and slip resistance are a priority. Where custom configurations are a consideration

Floor Protection	Modular System	Anti-Fatigue	Anti-Slip	Cleaning	Custom	Drainage	Oil/Grease Resistant

TESTING DATA

Test	Test Description	Results
Compression Deflection	Test specimen is subjected to varying compression load levels and the resulting deflection was measured. The greater the deflection, the better the anti-fatigue properties. (Inches)	.251" (40 lbs/sq. inch)
Coefficient of Friction ASTM C1028-96	A neolite heel assembly with a predetermined load is pulled horizontally with a dynamometer to measure the force required to cause the assembly to slip.	.76
Abrasion Resistance ASTM D3884-01	Test specimen is subjected to the rubbing action of two abrading wheels under controlled conditions. Results measured in Weight loss (Grams)	.22 Grams
Critical Radiant Flux ASTM E648-94A	The test result is an average critical radiant flux (watts/square cm) which indicates the level of radiant heat energy required to sustain flame propagation in the flooring system.	.44 watts/square cm

*Testing performed by an independent test laboratory.
