

# Electrically Conductive Deck Plate

#930

DRY AREA MATS | ANTI-STATIC

Introducing Crown's Electrically Conductive Deck Plate

Guard your components and equipment with Crown's Electrically Conductive Deck Plate, which rapidly neutralizes static charge. Our deck plate features a static dissipative surface that is ideal for industrial work environments. The deck plate's top surface enhances traction, while the PVC foam backing provides anti-fatigue relief for those who stand for long periods of time.

## APPLICATIONS

- dry areas
- computer work stations/terminals
- sensitive electronic equipment areas
- electrical rooms

## FEATURES

- Resistivity of  $10^6$  ohms per square
- Beveled edges for improved safety

## MAT SIZES

2' x 3' 3' x 5' 3' x 12'

## ROLL SIZES

3' x 75'

Customization: Available to 75'- custom cuts

Prop 65 WARNING: 65003

## MATERIAL

Extruded vinyl surface with PVC foam backing

## SURFACE ELECTRICAL PROPERTIES

1/100 sec from 20,000 volts to harmless

## BACKING RESILIENCE

>15% per ASTM D2632

## FLAMMABILITY

D.O.C. FF 1-70

## THICKNESS

9/16"

## WARRANTY Total Confidence

Stock mats include one grounding cord.

It is recommended that there should be one grounding cord for every 10' of matting.

For custom cuts and full rolls the grounding cords must be purchased separately.

75' Rolls are manufactured to a tolerance of  $\pm 1"$ .

Full rolls are not beveled on ends - rolls with beveled ends are priced as custom cuts.

Grounding Cord
