

HKK Chain

Now disassembling chains can be
Easy, Safe and Fast!
with HKK Chain Breaking Tools

For sizes 25 thru 60 (1/4" Pitch thru 3/4")

For sizes 60 thru 100 (3/4" Pitch thru 1-1/4")

For sizes 120 thru 160 (1-1/2" Pitch thru 2")

- No need for a hammer and punch.
- Save over half the time and labor.
- No more damaged parts.
- Simple for anyone to use.
- High quality, tempered durable parts.

To disassemble, just place breaker pin over each chain pin and tighten down until pin loosens from the sideplate. Alternate from either pin until the pin is forced through, and remove the disassembled pin link from the chain.
