

DuraBlast™

High Strength, Low Cost

At Tingley, a suit doesn't have to be expensive to offer the protection you need.

DuraBlast™ Double Coated PVC On Polyester Suit Engineered Specifically For Hydroblasting Applications

Extremely high tear strength is the result of an open weave polyester scrim fabric being sandwiched between two layers of flame resistant PVC coating.

- **Therm-O-Rad sealed seam construction for good chemical splash protection.**
- **Thicker outside coating for better abrasion resistance.**
- **Lighter interior coating protects fabric from chemical contamination.**
- **Flame resistant. Self extinguishing with flameout and afterglow less than 2 seconds after removal of ignition source. Test method ASTM D6413.**
- **Features hook & loop closures for hydroblasting applications.**

Ideal Applications: Hydroblasting, Light Chemical, Construction, Utilities, Agriculture, Food Processing, and General Industry.

FEATURES & BENEFITS

DURABLAST

- Full cut shoulder with 90° sleeve to body angle X ... for maximum freedom of movement
- Therm-O-Rad sealed seams for 100% X ... waterproof protection
- Storm fly front seals out wind, rain, and contaminants X ...
- Hook & loop take-up straps on sleeves and ankle cuffs for X ... adjustable fit
- Drawstring sweep for added protection X ...
- Hook & loop throat guard to seal out moisture X ...
- Non-conductive, non-corrosive hardware X ...
- Mildew resistant X ...
- Flame resistant tested * X ...

Chemical Resistance: Many acids, oils, alcohols, salts, and alkalis.

* Flame resistant. Self extinguishing with flameout and afterglow less than 2 seconds after removal of ignition source. (Test Method ASTM D6413.)

DuraBlast™ is a trademark of Tingley Rubber Corp.

#3061 – 9/11

DuraBlast jacket has storm fly front with snaps, full front hook & loop closure, and throat guard.
