

Electronic preset meter

3640-3, 3641-3, 3643-3, 3644-3, 3645-3, 343064-1, series 3640

Date of issue	March 2017
Form number	671000A 01727600A Rev 1
Read manual prior	r to installation or use of

Read manual prior to installation or use of this product. Keep manual nearby for future reference

Description

The metered control valves in the model series 3640 are designed to meter a variety of fluids. The valve assembly dispenses motor oils (SAE 5-50), gear oils (SAE 80-240), automatic transmission fluid, antifreeze (ethylene glycol), and hydraulic fluid.

Operation

Refer to 670998A User Manual (bulletin M 0411 EN_00) and 670999A Short Guide (bulletin M 0413 ML_00).

NOTE

Replace the 4 AA alkaline batteries when the bAtt signal appears on the LCD. Operating the meter until the batteries are completely depleted will cause it to be inoperable when new batteries are installed.

△ WARNING

Failure to follow these instructions may result in personal injury and/or property damage.

EC Declaration of Conformity

The undersigned: Alemite LLC, 167 Roweland Drive, Johnson City, TN USA, 37601

Hereby states under its own responsibility, that the equipment described below:

Description: Dispensing nozzle for oil Model 343604-1

Serial number: Refer to Lot Number shown on CE plate affixed to product.

Year of manufacture: Refer to the year of production shown on the CE plate affixed to the product is in conformity with the legal provisions indicated in the directive:

2014/30/EU - Electromagnetic Compatibility Directive.

The documentation is at the disposal of the competent authority following motivated request at Alemite, LLC or following request sent to the e-mail address: alemite.tech. support@skf.com

The person authorized to compile the technical file and draw up the declaration is Bob Hoefler as legal representative.

Tennessee, 37601 USA 23/05/2016

Robert Hoefler
