

Item#6000

5 Lighting Modes

High - 420 Lumens Run Time: 20 Hours Viewing Distance: 500 Meters	
Med - 200 Lumens Run Time: 55 Hours Viewing Distance: 240 Meters	
Low - 85 Lumens Run Time: 100 Hours Viewing Distance: 60 Meters	
Beacon* - 420 Lumens Run Time: 200 Hours Viewing Distance: 500 Meters	
Strobe - 420 Lumens Run Time: 70 Hours Viewing Distance: 500 Meters	

*Beacon mode emits two flashes of light (420 lumens) every 5 seconds. Perfect for emergency situations and distress signaling, this setting provides 200 hours of continuous use.

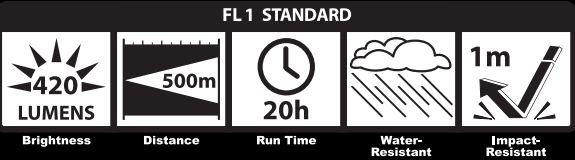

OPTIMIZED OPTICS (O²)

This new, international patent pending technology enhances the performance of the flashlight, causing the beam to project at a distance that is **COMPARABLE TO THE BEAM THROW OF A FLASHLIGHT THAT IS 800-1200 LUMENS!**

- 1. HIGH-POWER 420 LUMEN LED
- 2. AGGRESSIVE SELF-DEFENSE FACE
- 3. HEAT-SINK BEZEL DESIGN
Integrated heat-sinking rings are used to disperse heat from the bezel during extended periods of use.
- 5. CONVEX LENS
Evenly distributes the light for a highly-concentrated beam, without dull or dark spots.
- 6. LO-LIGHT™
An internal glow-in-the-dark component located behind the lens provides a secondary light source, without using any battery life. The LO-LIGHT™ recharges when the O² Beam™ is on and with natural light. A 10 second charge will provide 5 minutes of illumination from the LO-LIGHT™. This low signature light source ensures stealth and preserves night vision.

- 4. 4x ADJUSTABLE ZOOM
Turn the bezel clockwise for flood light, perfect for short range lighting. Turn the bezel counter-clockwise for spot light to focus light 500 meters away.

Each flashlight includes a gift box, owner's guide and instruction manual.

4pc Display

The display is designed to showcase one open case with light positioned as in the image. Underneath the display, there is room for 3 products in their gift box for customers to purchase.

Display Dimensions
(H) 9.29" x (W) 10.82" x (D) 10.27"

- 11. LANYARD INCLUDED
- 12. SERIALIZED
Each O² Beam™ is specially coded for quality assurance purposes.

- 8. USER INSTRUCTIONS
Each O² Beam™ flashlight has helpful information printed on the side: lighting modes, lumen ratings, run time and beam distance.
- 9. SMART SELECT DIAL
This smart select dial allows you to easily choose the mode you want without having to cycle through each setting. The dial can be used while the flash light is on or off.
- 10. GLOW-IN-THE-DARK BUTTON WITH BATTERY INDICATOR
Button will also glow red when battery life is less than 20%.

4 AA BATTERIES INCLUDED

With the O² technology™, the O² Beam™ outperforms flashlights with twice the lumen output, making it the most cost and energy efficient flashlight in its class with performance that you have to see to believe! The O² Beam™ – Industry standard redefined.
