Viewing Distance: 100 Meters

**2 Red LEDs - 8 Lumens**

Run Time: 150 Hours  
Viewing Distance: 3 Meters

**Red Flash - 8 Lumens**

Run Time: 120 Hours  
Viewing Distance: 3 Meters

Red light is primarily used to preserve night vision. Best used for low-light or nighttime situations, this low-signature light provides great contrast, making it easy to read charts and maps. Red light cuts through smoke better than white light, does not interfere with night vision technology, ensures stealth in the dark and cannot be easily seen by the human eye over long distances.

**Head Tilts 90° To Direct Light Wherever You Need It!**

The NEBO® 90 Head Lamp is a powerful and convenient hands-free lighting solution. The push button On/Off switch allows you to cycle through the 3 lighting modes: 1 White LED (90 lumens,) 2 Red LEDs (8 lumens) or 2 Red LEDs in Flash Mode. The LEDs are rated for 110,000+ hours of life. The head lamp also has an adjustable strap to ensure that it can be worn securely in any situation. The head tilts 90° to direct light wherever you need it. Powered by 3 AAA batteries (included), the 90 Lumen Head Lamp is tough, reliable, lightweight and completely shock-proof.
