

# RECIPROCATING SAW BLADES

BI-METAL | DEMOLITION

## Tackle any demolition project

with the Morse lineup of reciprocating saw blades. Help your customers streamline their toolbox – all they need on the job site are the Morse RENOVATOR and HAVOC blades to complete any demo or remodel.

### RENOVATOR®

The Morse RENOVATOR reciprocating saw blade is the ultimate heavy duty, demolition, and remodeling blade in the market. Cut through wood and metals without leaving frayed or jagged edges so there is no need for additional finishing work.

### HAVOC®

The Morse HAVOC Demolition reciprocating saw blade is specifically designed for “roughing in” applications on the construction site. Cut through all types of wood, wood composites, metal, and nail-embedded wood.

## RELATED PRODUCTS

### CARBIDE TIPPED

This general purpose carbide tipped recip is the best choice for thick metal cutting applications between 3/16" and 1/2".

### PLASTER

Designed for cutting drywall, plasterboard, and plaster with wood or metal lath.

### METAL

The best choice for cutting any machinable metal up to 1/4" (6.4mm) thickness.

## FEATURES

**Strong** - Increased blade rigidity offers more stable cutting in wider cuts

**Durable** - Heat, impact, and wear resistant for long cutting life

**Smooth** - Optimized tooth design eliminates the need for additional finishing work

**Versatile** - Fast in both traditional and plunge cutting
