Spline Shank Hammer Bits

List No. CM97
Single Point

Description: Single point, carbide tipped splines held to very close tolerances assure perfect fit and improve impact transmission for faster drilling. Vacuum brazed with pure copper at 1900.

Application: For use in concrete and hard masonry materials.

Spline Shank Hammer Bits

List No. CM98
Quad Point

Description: Spline shanks held to very close tolerances assure perfect fit and improve impact transmission for faster drilling. Vacuum brazed with pure copper at 1900°F. Vacuum heat treated tool body to 50RC. HL20 grade carbide.

Application: For use in concrete and hard masonry materials.

Quad Point Advantages:

- 50% improved bit life • Rounder, more accurate holes
- 60% less vibration • 30% less noise
- Resists rebar hits • Extends hammer life
- Less operator fatigue
