External Swage Notched NOS Stems and Ferrules

Features:

- The notched system allows you to better manage your inventories. You can stock one stem and two ferrules to cover the same hose range with less inventory. *You must purchase a fitting and the matching ferrule to create an assembly.*
- For hose outside diameters of 2-4/64" and below, *the couplings are crimp only.*
- For hose outside diameters of 2-5/64" and above, the couplings can be crimped or swaged.
- See page 69 for cam and groove style notched NOS fittings.

M

Only use the NOS shank with the NOS ferrules.

Due to differences in dimensions and tolerances for safety reasons, do not use other manufacturer's stems or ferrules with Dixon Holedall products.
