Roller transfer plates - 6" & 9" version

Type:

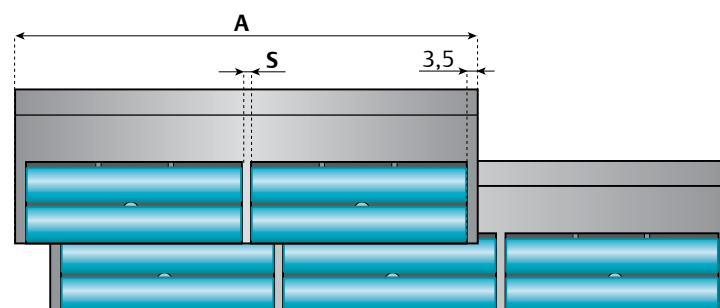

SR Plastic rollers with noise reducing characteristics

SSA Plastic rollers with micro ball bearings for ultra low coefficient of friction

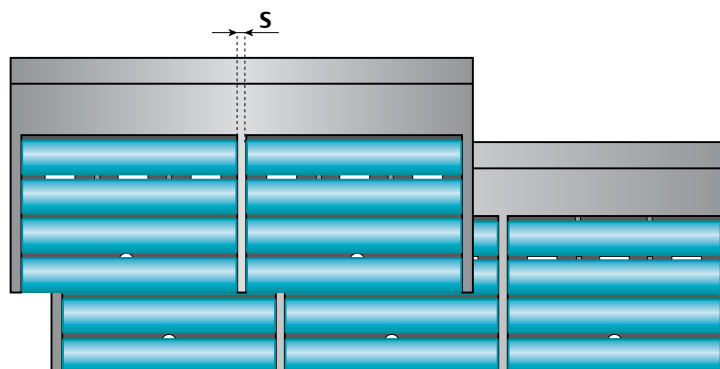

Click here for related information.

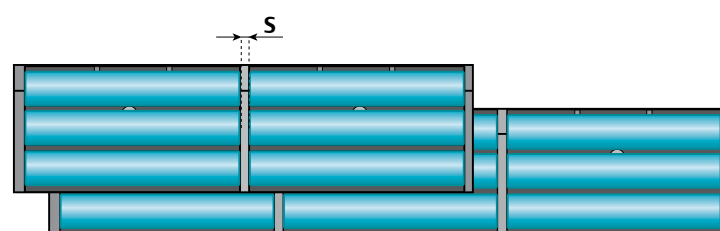

Version with 2 rollers

Version with 4 rollers

Intermediate roller module

Material:

Body: Acetal thermoplastic resin

Rollers: Acetal (type SSA), Thermoplastic resin with noise reducing characteristics (type SR)

Pins, hardware and micro ball bearings (SSA only): Stainless steel

6" version		9" version	
Roller type: A=154 - S=3		Roller type: A=225 - S=1.5
